

I hope that you leave the Wisconsin Do Not Call List alone. I am really enjoying eating my meals without being bothered by telemarketers. I also go to bed early due to waking up at 4:00am and get tired of being bothered by salesman.

I understand that this is supposed to allow companies that I have done business with the opportunity to get me back as a customer, if I left, it was probably for a reason. If I wanted their product, I would call THEM!!!
